Sirs,

I am a seventh grade student  
in Columbiana High School interested  
in Astronomy. I saw three blinding  
flashes of light about as big as a  
car come across the horizon  
slowly speed up and disappear  
over the horizon.

There were 4 of them. But there  
were I would like some information  
on U.F.O.s. Oh yes it was  
1:00 o'clock in the morning when  
I saw these lights or flying saucers.

Yours
